Vinyl Cutter DIY Project

Description: For this DIY project, you can create anything you choose! If it's more complex than just a sticker, you must attend a project support session and approve it with the vinyl cutter managers.

Deliverables: Submit your design file (Adobe Illustrator) and a picture of the completed project. Include a short description of its purpose (300 words or less) if it's not obvious.

Grading: You will be graded as followed.

|	0 pts ← → 5 pts		
Creativity	Very simple design that requires no thought		Unique/useful implementation of the learned skills
Completeness	Not used		Vinyl cutter used successfully
